So, you've found some songs or good playlists on Spotify, but you'll want to listen offline. Fortunately, Spotify has a way to download your favorite songs so you can enjoy them whenever you want. Before you get too excited, you'll first need a few things: a device to store songs on, an internet connection, and a Spotify Premium subscription. The prerequisite Spotify is a little tricky about what you can download on a particular device, so here's a quick summary: on your desktop, you can save your favorite songs and playlists for offline listening, but - unlike on mobile - albums and playlists are out of the equation. Downloading a full catalog of your favorite songs from your desktop computer Couldn't be easier to download your favorite songs from your desktop - just open spotify's favorite songs section and switch the download (using the Spotify app for MacOS or Windows) movie. That's all. How to download a playlist from step 1 of your desktop: When you view a curated playlist that you want to download, click the small heart icon directly to the right of the Play button to save it to your library for easy access. (Otherwise, the download option is hidden.) Step 2: Next, switch the download slider to the upper right corner of all playlists. Playlist downloads will start, but keep in mind that it may take some time depending on the size of the playlist and the speed of your internet connection. Once saved, playlists can be accessed from the Playlists section on the left side of spotify applications for MacOS and Windows, along with all other playlists (even those that have not been downloaded for offline listening). Whether you're downloading your favorite song playlists, albums, or playlists on mobile, the procedure is the same across the board. All you have to do is load the collection you want to save and tap the download switch in the upper right corner. The track then starts downloading. Note: You don't need to follow playlists or albums to download them from your mobile device. How to download podcasts on mobile stage 1: When you view podcasts (such as trends with benefits), tap the three horizontal points in the upper-right corner (or three vertical points if you're using an Android device) to access the Info panel. Step 2: Select Manage downloads as: Step 3: You'll see a download icon next to each episode, so you can choose which icon to download. Note: You can also tap the three horizontal points to the right of each episode and select Download for a faster way. Troubleshooting an issue where additional songs could not be downloaded? It could be because you've hit the oh-so-frustrating 3,333-song limit per device. In this case, we recommend that you remove the playlist from the playlist. Listening library. You can free up space for the tracks you want to download. It's also important to keep in mind that you can only download songs from three devices at a time. If you try to add more, you'll run into a dead end. When you reach that point, the only option is to disable offline listening on one of the other gadgets to make a u-turn.
